Data

Dear Friends and Colleagues of the California Perinatal Quality Care Collaborative:

We are pleased to introduce you to our newly improved website for the California Perinatal Quality Care Collaborative. Our website is located at <a href="http://www.cpqcc.org">http://www.cpqcc.org</a>. For your convenience, a print screen of the website is attached.

The website is designed to engage our membership and the perinatal community in improving the quality of NICU care using state of the art collaborative Quality Improvement Methods. We have organized the website to encourage intuitive navigation by adding dynamic elements to the site and by developing new tools to encourage our membership's active participation. The following is a brief description of each of the sub-pages:

**Home** This page allows us to post important news items and a brief introduction to CPQCC.

- Quick Links. We've added links to the CPQCC Database Management Home Page, the CPQCC Data Reports Home Page, and the CPQCC/CCS Healthcare Associated Infection (HAI) Collaborative.
- **Events.** A list of one-time events put on by CPQCC and its programs. Please email <a href="mailto:support@cpqcc.org">support@cpqcc.org</a> to request the addition of events. Specific program events are also posted in their respective program pages.

**About Us**This page provides an organizational history and overview of various CPQCC programs.

There are also quick links to the Executive Committee roster and the PQIP Panel roster.

**Membership** This page provides information on how to join CPQCC, as well as, the list of current member hospitals.

This page provides an overview of the CPQCC Data Center activities including highlights of important milestones. Member announcements regarding upcoming deadlines are highlighted on the page and on the Events calendar. The subpages are organized to aid members to easily link to and download information by collaborative partners, specifically CPeTS and CCS.

Quality Improvement This page provides background information on PQIP and its purpose. It also includes quick links

to the QI Toolkits, the CPQCC/CCS Healthcare Associated Infection (HAI) Collaborative, Webcast Recordings, and PQIP Meetings. CPQCC Members participating in the HAI Collaborative can access program-specific pages through a members-only login.

**Research** This page highlights the research conducted by CPQCC including a list of publications.

**CMQCC** This page links to the external site of our sister project, the California Maternal Quality Care

Collaborative.

The current website is a work-in-progress by the fact that we are constantly working to improve the site, its organization and its contents. We welcome the valuable feedback and recommendations of the community in helping us improve the overall utility and design of the site. For more information, please email Grace Villarin Duenas at <a href="mailto:support@cpqcc.org">support@cpqcc.org</a>.
