

Collaborating for Access and Resources in Early Life (CARE) Collaborative

Step Into Your Next Quality Improvement Opportunity

California Perinatal Quality Care Collaborative (CPQCC) recognizes the positive impact many hospitals make on improving health outcomes in their local communities. The Collaborating for Access and Resources in Early Life (CARE) Collaborative aims to extend that impact even further, with a focus on optimizing healthcare delivery for NICU infants and their families by meeting their medical, psychological, and social needs.

Why Should Your Hospital Join the CARE Collaborative?

- Improve outcomes and reduce cost utilization
- Align with state and federal mandates
- Enhance discharge planning and care coordination
- Improve family experience and trust

Why Should Your NICU Join the CARE Collaborative?

- Benefit from a statewide learning community
- Build and sustain quality improvement capacity
- Enhance staff engagement and team wellness
- Strengthen care coordination and discharge planning
- Improve family experience and trust
