# CCS HRIF Brief Background

➤ 1979 CCS Standards for “Tertiary” NICUs were developed addressed CCS HRIF examinations. “CCS may pay for follow-up examination of high risk NICU graduates even though a CCS eligible condition does not exist”.

➤ July 1, 2006 restructured CCS HRIF Program went into effect

## **Core Diagnostic Services**

- Comprehensive History & Physical Exam with Neurologic Assessment
- Developmental Assessment
- Family Psychosocial Assessment
- Hearing Assessment
- Ophthalmologic Assessment
- Coordinator Services

# CCS HRIF Brief Background

- CCS & CPQCC designed the High Risk Infant Follow-up Quality of Care Initiative (HRIF-QCI) Reporting System to:
  - Identify Quality Improvement Opportunities for NICUs in the Reduction of Long Term Morbidity
  - Allow HRIF Programs to Compare their Activities with All Sites Throughout the State
  - Allow the State to Assess Site-Specific Successes
  - Support Real-Time Case Management

# NICU Referral Requirements

- It is the **responsibility** of the discharging to home CCS NICU/Hospital **or the last** CCS NICU/Hospital providing care to make the referral to the HRIF Program.
- The NICU referral process:
  - **“Referral/Registration Form” is completed/submitted** via the web-based HRIF-QCI Reporting System (<http://www.ccshrif.org>) by the discharge/referring NICU/Hospital at time of discharge to home.
  - The discharging/referring NICU/Hospital will **submit a SAR to the local CCS** Office for HRIF services. (Service Code Group [SCG] 06 should be requested).
  - Send a copy of the referring **child’s discharge summary** to the HRIF Program

Reference: [High Risk Infant Follow-up Program Number Letter \(N.L.\): 01-1113](#)

# HRIF Reporting Requirements

- The HRIF Coordinator is **responsible** for ensuring that data is collected and reported to the Systems of Care Division, CCS Program and the California Perinatal Quality Care Collaborative (CPQCC). The HRIF Coordinator will:
  - Coordinate the collection, collation, and reporting of required data.
  - Provide data to CCS/CPQCC Quality Care Initiative (QCI) HRIF Web-Based Reporting System. Refer to the HRIF/QCI website for reporting system information and requirements: <https://www.ccshrif.org>. The reporting forms include:
    - Referral/Registration (RR) Form
    - Standards Visit (SV) Form
    - Additional Visit (AV) Form
    - Client Not Seen/Discharge (CNSD) Form

# HRIF Reporting Requirements

- Ensure required data is submitted accurately and in a timely fashion to the CCS/CPQCC HRIF QCI and meets all required deadlines.
- Review and share results of the HRIF Summary Report and the HRIF CCS Annual Report with members of the HRIF program team, with referring NICU Medical Directors, and NICU team.
- In collaboration with the NICU Medical Director, ensure that the HRIF Program fully participates in the CCS Program evaluation, including submission of required information and data.
- Provide data and information that is required for the evaluation.

# HRIF-QCI Reporting System

Effective April 2009, this web-based HRIF-QCI Reporting System was developed for CCS HRIF Program medically eligible infants, regardless of insurance status or CPQCC eligibility.

# CCS HRIF PROGRAM MEDICAL ELIGIBILITY CRITERIA

Data should be collected on infants/children under three years of age who meet California Children’s Services (CCS) HRIF medical eligibility criteria **and** who met CCS medical eligibility criteria for Neonatal Intensive Care Unit (NICU) care **OR** had a CCS eligible medical condition at some time during their stay in a CCS-approved NICU, even if they were never a CCS client. **Infants are medically eligible for the HRIF Program when the infant:**

**Met CCS medical eligible criteria for NICU care, in a CCS Program-approved NICU, regardless of length of stay, (as per Number Letter 05-0502, Medical Eligibility in a CCS Program-approved NICU or the most current N.L.). NOTE:** Medical eligibility includes neonates who require direct admit to a CCS-approved PICU, who are never admitted to a CCS Program-approved NICU, but who otherwise meet all medical eligibility criteria for HRIF services.

**OR**

**Had a CCS Program-eligible medical condition in a CCS Program-approved NICU, regardless of length of stay, even if they were never CCS Program Clients during their stay, (as per California Code of Regulations, Title 22, Section 41515.1 through 41518.9, CCS Program Medical Eligibility Regulations).**

**AND MET ONE OF THE FOLLOWING:**

**Birth weight ≤ 1500 grams or the gestational age at birth < 32 weeks.**

**OR**

**Birth weight > 1500 grams and the gestational age at birth ≥ 32 weeks and one of the following criteria was met during the NICU stay:**

1. pH less than 7.0 on an umbilical blood sample or a blood gas obtained within one hour of life) or an Apgar score of less than or equal to three at five minutes or an Apgar score less than 5 at 10 minutes.
2. An unstable infant manifested by hypoxia, acidemia, hypoglycemia and/or hypotension requiring pressor support.
3. Persistent apnea which required caffeine or other simulant medication for the treatment of apnea at discharge.
4. Required oxygen for more than 28 days of hospital stay and had radiographic finding consistent with chronic lung disease (CLD).
5. Infants placed on extracorporeal membrane oxygenation (ECMO).
6. Infants who received inhaled nitric oxide greater than four hours, and/or treatment during hospitalization with sildenafil or other pulmonary vasodilatory medications for pulmonary hypertension.
7. Congenital heart disease requiring surgery or minimally invasive intervention.
8. History of observed clinical or electroencephalographic (EEG) seizure activity or receiving antiepileptic medication(s) at time of discharge.
9. Evidence of intracranial pathology, including but not limited to, intracranial hemorrhage (grade II or worse), white matter injury including periventricular leukomalacia (PVL), cerebral thrombosis, cerebral infarction or stroke, congenital structural central nervous system (CNS) abnormality or other CNS problems associated with adverse neurologic outcome.
10. Clinical history and/or physical exam findings consistent with neonatal encephalopathy.
11. Other documented problems that could result in neurologic abnormality, such as: history of CNS infection, documented sepsis, bilirubin at excessive levels concerning for brain injury as determined by NICU medical staff, history of cardiovascular instability as determined by NICU medical staff due to: sepsis, congenital heart disease, patent ductus arteriosus (PDA), necrotizing enterocolitis, other documented conditions.

**HRIF Program Referral Process:**

*Communication is between the CCS Program-approved NICU and HRIF Program.*

1. The discharging/referring NICU/Hospital will refer eligible infants to the HRIF Program at the time of discharge to home, and complete the “Referral/Registration (RR) Form” via the **web-based** HRIF-QCI Reporting System.
2. The discharging/referring NICU/Hospital or HRIF Program will submit a Service Authorization Request (SAR) to the local CCS Office for HRIF Services. (Service Code Group [SCG] 06, should be requested).  
<http://www.dhcs.ca.gov/services/ccs/cmsnet/Pages/SARTools.aspx>
3. The discharging/referring NICU/Hospital will send a copy of the Discharge Summary to the HRIF Program.

**Medical eligibility for the HRIF Program is determined by the County CCS Program or Regional Office staff. The CCS Program is also required to determine residential eligibility. As the HRIF Program is a diagnostic service, there is no financial eligibility determination performed at the time of referral to CCS. However, insurance information shall be obtained by CCS. An infant or child is eligible for the HRIF Program from birth up to 3 years of age.**

Program Letter: 01-0917

To: Medical Directors and Coordinators of California Children's Services  
Program (CCS) - Approved High Risk Infant Follow-up (HRIF) Programs

Subject: Clarification of Congenital Heart Disease Eligibility Criteria

Dear HRIF Medical Director and HRIF Coordinator:

The HRIF Numbered Letter 05-1016 and HRIF Program Letter 01-1016, both dated October 12, 2016, updated the Medical Eligibility criteria for HRIF to include Congenital Heart Disease (CHD) requiring surgery or minimally invasive intervention. This letter is written to address several requests from HRIF local programs to further clarify the CHD Medical Eligibility criteria and provide some case examples.

HRIF Medical Eligibility in these cases requires admission to a Neonatal Intensive Care Unit (NICU) or directly to a Pediatric Intensive Care Unit or Cardiovascular Intensive Care Unit (CVICU) within the neonatal period, and surgery or minimally invasive therapeutic intervention (such as catheter-based balloon angioplasty) for CHD during that hospitalization.

Given these clarifications, an example of a patient who would not meet HRIF eligibility would be an infant who was diagnosed with an Atrioventricular Canal Defect but never admitted to a NICU and did not meet other HRIF eligibility criteria, discharged to home and outpatient follow-up, and subsequently admitted to a CVICU at three months of age for surgical intervention. Another example of a patient who would not meet HRIF eligibility would be an infant who was diagnosed prenatally with Tetralogy of Fallot, admitted briefly to a NICU for monitoring and evaluation, discharged to home without intervention and without meeting other HRIF eligibility criteria, and subsequently admitted to a CVICU at four months of age for surgical intervention.

These clarifications are consistent with the CCS Program mandate for HRIF and with the goal of assuring identification and referral of those who are most vulnerable and at highest risk.

# CCS CHD Clarification

**September 27, 2017**

**Program Letter: 01-0917**

The HRIF Numbered Letter 05-1016 and HRIF Program Letter 01-1016, both dated October 12, 2016, updated the Medical Eligibility criteria for HRIF to include Congenital Heart Disease (CHD) requiring surgery or minimally invasive intervention. This letter is written to address several requests from HRIF local programs to further clarify the CHD Medical Eligibility criteria and provide some case examples.

**HRIF Medical Eligibility in these cases requires admission to a Neonatal Intensive Care Unit (NICU) or directly to a Pediatric Intensive Care Unit or Cardiovascular Intensive Care Unit (CVICU) within the neonatal period, and surgery or minimally invasive therapeutic intervention (such as catheter-based balloon angioplasty) for CHD during that hospitalization.**

# CCS CHD Clarification

Given these clarifications, an example of a patient who would **not meet HRIF eligibility**: *an infant who was diagnosed prenatally with Tetralogy of Fallot, admitted briefly to a NICU for monitoring and evaluation, discharged to home without intervention and without meeting other HRIF eligibility criteria, and subsequently admitted to a CVICU at four months of age for surgical intervention.*

These clarifications are consistent with the CCS Program mandate for HRIF and with the goal of assuring identification and referral of those who are most vulnerable and at highest risk.

# Reporting Submissions

■ RR ■ SV #1 ■ SV #2 ■ SV #3

**2014** = Implemented the CPQCC HRIF Referral Deliverable (900+)

# CPQCC-CCS HRIF Usage Stats

- **Since 2009 to end August 2017:**
  - **~ 64,600 high risk infants** registered statewide!
  - ~88,000 Standard Visits performed
  - ~7,000 Additional Visits performed
  
- ~50% are VLBW ( $\leq 1500$  g).
  - **~32,700 of registered/ referred are VLBW**
  
- **Other:**
  - <28 weeks: ~ 28,000
  - <26 weeks: ~5,200

# CPQCC-CCS HRIF Usage Stats

- **For birth year 2013-** ~ 7,500 high risk infants registered
  - $\leq 1500$  g: ~3,900
  - $< 32$  weeks: ~4,300
  - $< 28$  weeks: ~1,400
- **For birth year 2016-** ~ 8,600 high risk infants registered
  - $\leq 1500$  g: ~4,100
  - $< 32$  weeks: ~4,700
  - $< 28$  weeks: ~1,400

# Reporting Forms

# Referral/Registration (RR) Form

The “RR Form” is completed (except HRIF I.D. Number) by the discharge/referring NICU/Hospital **at time of discharge to home**.

**NOTE:** Register patients who are alive at the time of discharge to home.

(11) Required Fields - **MUST** be entered in order to save online entry screen. Saved entry screens can be recalled at a later date to make necessary updates.

CPQCC Reference Number	Infant's Gender
Date of Birth	Hospital Discharging to Home
Birth Hospital	Date of Discharge to Home
Birth Weight	Birth Mother's Date of Birth
Gestational Age	Medical Eligibility Criteria
Singleton/Multiple	

# RR Form Entry

**Form Sections** Hospital/Center Information (optional); Program Registration Information and Medical Eligibility Profile

**This Form is Closed** checkbox serves as an electronic signature confirmation (validation system) that all available data has been entered.

**Unable to Complete Form** checkbox, should ONLY be used for the specific scenarios:

- Infant expired prior initial core visit - disposition: closed
- Parents refused follow-up services – disposition: closed
- Lost to follow (unable to contact the family after multiple attempts) - disposition: closed

**NOTE:** A "CNSD Form" should be submitted for the above case scenarios.

# Standard Visit (SV) Form

The HRIF Program has 3 core visits that take place during the following time periods:

**Visit #1** (4 - 8 mos)

**Visit #2** (12 - 16 mos)

**Visit #3** (18- 36 mos)

**NOTE:** The time frames for the core visits are only recommendations and guidelines that were decided by the HRIF-QCI Executive Committee.

During the third and final core visit (18-36 months) a developmental test, such as a Bayley III Scales of Infant and Toddler Development, **must** be performed and reported. It is highly recommended that an Autism Spectrum Screening tool such as the MCHAT be performed between 16-30 months of age.

**Form Sections** Visit Assessment; Patient Assessment; General Assessment; Interval Medical Assessment; Medical Services; Neurosensory Assessment; Neurologic Assessment; Cerebral Palsy; Developmental Assessment; Autism Spectrum Screen (optional); Early Start; Medical Therapy Program; Special Services Assessment; Social Concerns and Resources; Child Protective Services; Other Medical Conditions and Disposition

# Additional Visit (AV) Form

If an infant requires additional visits for further assessment, an “AV Form” must be completed. Additional visits may occur before, between and/or after the recommended time frames for standard visits.

This form only captures the date, reason (Social Risk, Case Management, Concerns with Neuro/Developmental Course or Other) and disposition for the additional visit.

**NOTE:** All fields are required in order to save online entry screen. Saved entry screens can be recalled at a later date to make necessary updates.

**Form Sections** Reason for Additional Visit; Disposition and Hospital/Center Information (optional)

**This Form is Closed** checkbox serves as an electronic signature confirmation (validation system) that all available data has been entered.

# Client Not Seen Discharge (CNSD) Form

Should be used for the following case scenarios:

1. Infant referred to your HRIF Program, but your staff was unable to contact the infant's parent (primary caregiver) to establish an initial core visit after multiple (3-5) attempts.
2. **No Show:** parent (primary caregiver) reschedule (less than 24 hours) or does not show for a scheduled core visit.
3. Infant eligible for HRIF Program, but parent (primary caregiver) declines service.
4. Infant expired prior to core visit, family relocated, insurance denial, etc.
5. Infant transferred/referred to another HRIF Program for follow-up services.

This form captures only the date, category, reason and disposition for the client not seen visit.

**Form Sections** Category; Reason for Client Not Seen/Discharged; Disposition and Hospital/Center Information (optional)

# CNSD Form

- Unable to contact family to establish a 1<sup>st</sup> visit after multiple (3-5) attempts. Close the case on the date of the last attempt. Disposition = “**Discharged**”. SV #1 should occur between 4-8 months.
- Child meets HRIF criteria, but family lives or moves out of state/country, prior to 1<sup>st</sup> visit. Register and submit CNSD Form Disposition = “**Discharged – Family Moved Out of State/Country**”.
- “**Discharged**” dispositions will not completely close the case record. You are able to add forms to the record if applicable. If the child comes to clinic at 16, 24 or 30 months, the system will accept 3 SV Forms up to the child’s 3<sup>rd</sup> birthday.

quality care collaborative

# System Access

# How To Get Access

- Submit a Help Ticket
- Include the following information:
  - Center Name
  - Does your center provide HRIF Services? **Y/N**
  - Full Name
  - Title
  - Email Address
  - Phone Number
  - User Account Access

# How To Get Access

**User Account Access:** (contacts can have multiple accounts):

- ➔ **Data User:** CCS-approved HRIF Program staff submits all data forms (Referral/Registration (RR), Standard Visit (SV), Additional Visit (AV) and Client Not Seen/Discharge (CNSD) for infants/children receiving follow-up services from their own HRIF Program. Data Users can generate HRIF Program, HRIF CCS Annual and Patient Summary reports.
- ➔ **Referral User:** CCS-approved NICU and/or HRIF Program staff refers HRIF eligible infants to a CCS HRIF Program and only has access to submit the “Referral/Registration Form”. No access to generate/view reports.
- ➔ **NICU User:** CCS-approved NICU staff (read-only access) generate/view NICU Summary reports.

# Duo Secure Login

- **Effective June 2014, in order to access the online HRIF-QCI Reporting System, you will have to use the Duo Two-Factor Authentication security software.** Two-factor authentication enhances the security of your online accounts by using your phone to verify your identity. This prevents anyone but you from accessing your accounts, even if they know your password. For more information about Duo Security visit: <http://guide.duosecurity.com/>.
- Two-factor authentication adds a second layer of security to your account to make sure that your account stays safe, even if someone else knows your password. And you'll be alerted right away (on your phone) if someone does know your password and tries to log in with it.
- This second factor of authentication is separate and independent from the username and password step — **Duo never sees your password.**

“Our goal is to improve the health of pregnant women and newborns by making sure that approaches to illness that have been demonstrated to be effective are actually being carried out.”

– JEFFREY B GOULD, MD, MPH, PRINCIPAL INVESTIGATOR, CPQCC

# Closeout Checklist

- This tool was developed to guide HRIF Programs through the Data Finalization Process (DFP). Six (6) task items are required to finalize data submitted for birth year 2014; SV #1 or AV Forms for ALL Expected 2016 born infants and RR for infants born in 2017.
  - **#** : the task item number.
  - **Activity**: the description of the deliverable.
  - **Resource**: active links to tools and resources to aid in completing the deliverable.

# Closeout Checklist

- **Deadline:** the due date of the deliverable.
- **Complete:** checkbox and date stamp to indicate the deliverable is complete.
- Grayed out boxes are automatically checked once the system verifies that the deliverable was completed (items #1 thru #4).
- Item #5 **must** be manually checked by HRIF Program
- Item #6 will be checked by HRIF Support

# Closeout Checklist

## Activities and Deadlines:

1. No Priorities 2014 infants (auto) – **April 1st**
2. No Errors/Warnings 2014 infants (auto) – **April 1<sup>st</sup>**
3. SV #1 for ALL Expected 2016 infants (auto) – **April 1<sup>st</sup>**
4. CCS Report reviewed/approved (auto) – **April 16<sup>th</sup>**
5. Registered 2017 HRIF eligible infants (man) – **June 1<sup>st</sup>**
6. Reviewed/Sign-off Directory (man) – **June 1<sup>st</sup>**

## CLOSEOUT CHECKLIST

### NOTICE

- Closeout Checklist is updated nightly.
- All disabled items are automatically checked by the system or HRIF Support.
- Item #4 **must** be confirmed by the HRIF Medical Director or Coordinator by **April 16th**.
- Item #5 **must** be checked manually by the HRIF Program.
- Submit a help ticket: [www.cpqccsupport.org](http://www.cpqccsupport.org) for all data finalization requests.

# Confirm HRIF CCS Report

## HRIF ATTESTATION AND CONFIRMATION STATUS

I am the:  Medical Director  HRIF Coordinator  Proxy for Medical Director/HRIF Coordinator

Proxy Role:

**I, Erika Gray, have reviewed the data values in this report on 09/26/2016. I confirm that the data is complete and accurately reflects the activity of Children's Hospital Of Orange County for patients born in 2012.**

Confirm Report

**The data in this report was review and confirmed by Erika Gray, Program Manager, on 09/26/2016 as complete and accurate for patients of Children's Hospital Of Orange County born in 2012.**

## AWARDS

---

All earned awards for your HRIF Program will be displayed on the Closeout Checklist. The CPQCC website ([www.cpqcc.org](http://www.cpqcc.org)) has a page dedicated to each HRIF Program, the “**Data Management Awards**” page: [www.cpqcc.org/about-us/data-management-awards](http://www.cpqcc.org/about-us/data-management-awards). Programs can view all awards earned from 2014, and can sort the awards alphabetically or by number of awards earned. **NOTE:** Awards will be announced via CPQCC/HRIF Newsletter Bulletins (MailChimp).

**Super Star =**

Granted to HRIF Programs that completed items #1 through #3 on the Closeout Checklist by March 1<sup>st</sup>

**Follow-up Rate =**

Granted to HRIF Programs who meet the follow-up rates for the closing birth year:

- 1<sup>st</sup> Visit => 80%
- 2<sup>nd</sup> Visit => 70%
- 3<sup>rd</sup> Visit => 60%

**Surprise =**

Granted to HRIF Programs that are recognized for a random positive performance data quality aspect.

**Crown (new) =** Granted to HRIF Programs who meet all closeout deadlines. (April 1<sup>st</sup>, April 16<sup>th</sup> and June 1<sup>st</sup>)

## CPQCC Close-Out Check List for Center 0000 and Birth Year 2017 as of 2017-10-09 at 13:41

*Items 1, 2, 7 and 8 must be checked manually. All other items are automatically checked.*

# Common Issues & Solutions

- 
- Who is responsible for referring HRIF eligible infants? The CCS NICU who is discharging the infant home.
  - What is the HRIF ID Number? A computer generated **8-digit** number assigned to the infant/child after submitting the “RR Form” in the web-based Reporting System.
  - Searching for Records in the System: Use the “**HRIF ID #**” or “**Date of Birth**” search fields.
  - When do you use the “**Still in Hospital**” check box? If the infant/child is still hospitalized in the NICU or other unit in the hospital at 8 months chronological age.
    - **June 1st, 2018 Closeout Deadline** - Item #5 (register all eligible 2017 infants), if there are infants who meet HRIF criteria and are still in hospital in May 2018, register those infants “Still in Hospital”, the patient’s date of discharge to home can be updated later.

- 
- How do you obtain a CPQCC Patient ID Number? Contact the CPQCC Data Contact person from the birth/discharge NICU to obtain the CPQCC Patient ID #.
  - Infant has two CPQCC IDs, which one do I use? Either one, **note** the ID number you choose to use **must** be paired with the Hospital's OSHPD code who assigned the CPQCC ID Number.
  - Not Sure if the Infant Qualified for CPQCC Patient ID#: Enter **“00000”** as the CPQCC Network Patient ID Number, if your not sure if the infant met the CPQCC NICU Eligibility Criteria or a CPQCC ID Number has not been assigned to the infant.
  - Infant Qualified for CPQCC, but no ID was assigned: Enter **“77777”** as the CPQCC Network Patient ID Number, if the infant met the CPQCC NICU Eligibility Criteria, but **never assigned** a CPQCC ID Number.

- 
- Infant eligible for HRIF, but family lives out of state/country:
    1. Submit RR Form
    2. Submit a CNSD Form: indicate family moved out of state/county and **Discharge, Family Moving Out of State/Country**, then close the form.
  
  - Patient seen for 1<sup>st</sup> visit, scheduled to return, **BUT** 6-8 months have passed and patient has not been seen after multiple (3-5) attempts. How to code in the system: Submit a CNSD Form using the date of the last attempt to contact, reason = unable to contact and disposition = discharge-closed out of program.
  
  - If you check the **“Unable to Complete Form”** box on the RR Form: Submit a CNSD Form to indicate the reason your unable to complete the form: “Infant Expired”, “Lost to Follow-up” or “Parent Refused”.
  
  - Review the **HRIF Record Tracker** and **Errors and Warning** tools on a quarterly basis to keep your records up-to-date.
  
  - Need additional assistance contact HRIF Support to schedule a one-on-one phone conference.

# Resolve Duplicate Records

1. Contact the HRIF Program with the duplicate case to review the records.
  2. Make sure **all** data variables are captured on the RR Form (CPQCC Reference Number, Birth Mother's Date of Birth, Discharge Date to Home, etc).
  3. \*Combine **all** data forms (SV, AV and CNSD) into one record.
  4. The HRIF Program **not** currently following the patient should use the orange "**Delete**" button located at the bottom of the RR Form entry screen to remove their record from the system.
- \*TIP:** Use the "**Patient Data Quality Self-Audit Instrument Report**" located in the "Patient's Case History" page to review the details of the record.

# Transfer Patient Records

1. Contact the CCS HRIF Program Coordinator where the patient will be transferred for follow-up care, to inform them of the patient.
2. Submit a **“CNSD Form”**, before requesting to transfer the patient’s record:  
Category: **“Discharged”**  
Reason: **“Infant Referred to Another HRIF Program”**  
Disposition: **“Will be Followed by Another CCS HRIF Program”**
3. Submit a **“HELP TICKET”** to request the record transfer to another CCS HRIF Program. Include in the ticket request the patient’s **“HRIF ID Number”**, **“Date of Birth”** and the **“HRIF Program, where the patient will be transferred”**.

**NOTE: Records are transferred every Friday; request received on Friday will be transferred the following week.**

# Transfer Records

1. CNSD form's date of Not Seen, should **not be greater than 2 months** when requesting a transfer.
2. If child is **greater than 28 months**, HRIF Support will contact the transfer to HRIF Program Coordinator to confirm the case prior to transferring.
3. Use the Correct Disposition:
  - Select **“Will Be Followed by Another CCS HRIF Program”** when the infant/child is transferred and receiving follow-up care from another CCS HRIF Program.
  - Select **“Discharged, Will be Followed Elsewhere”** when the infant/child will be receiving follow-up care from a NON CCS HRIF Program in California. No further data will be submitted to CMS/CCS.
4. Transfer request Help Tickets will be closed if left idle for 2 or more days after response by HRIF Support.

# Transfer Records

**Closeout Checklist Item #3.** SV #1 for All expected 2016 infants  
deadline April 1, 2018

Records transferred to a HRIF Program 2-months prior to the March 1<sup>st</sup> HRIF award management deadline will not be counted against the receiving program.

HRIF Programs that receive transfer records for infants born in 2016 after January 1, 2018 **must** contact HRIF Support by submitting a help ticket and document this record in the “**User Comment**” box on the Closeout Checklist Form, located under the “Tools” tab.

# Reporting System Tools - Review

# CCS NICU HRIF Referral Guidelines

Purpose of the CCS NICU HRIF Referral Guidelines is to help assist CCS NICUs with timely infant referrals to the HRIF Programs and to meet CPQCC expectations.

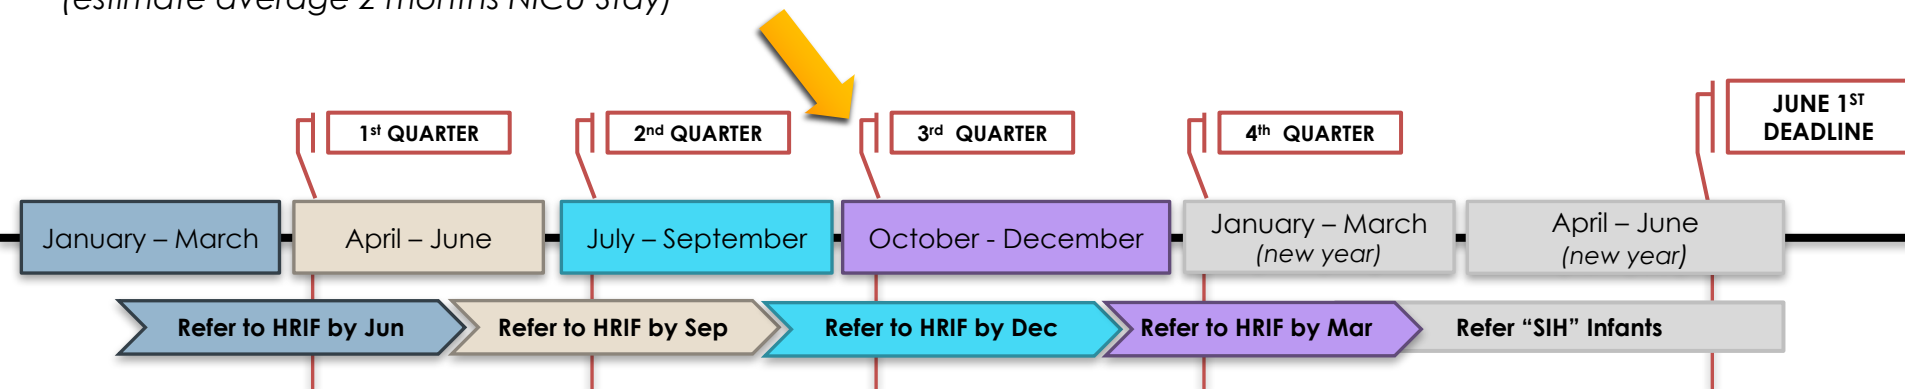

*“As part of the CCS NICU discharge planning process, the NICU must identify and refer to the CCS Program clients identified as potentially eligible for the HRIF Program.”*

Visit the [CCS Provider Standards](#) webpage to review the CCS NICU Provider Standards – Chapter 3.25.

# CCS NICU High Risk Infant Follow-up Eligible Infants Referral Guidelines

(estimate average 2 months NICU Stay)

- Infants discharge to home in January – March, should be registered before June
- Infants discharge to home in April – June, should be registered before September
- Infants discharge to home in July – September, should be registered before December
- Infants discharge to home in October – December, should be registered before March (new year)
- Any Still in Hospital (SIH) infants, should be registered once identified as eligible for HRIF
- All infants born in the year **MUST** be registered in the HRIF-QCI Reporting System before the June 1<sup>st</sup> deadline.

**CPQCC 3<sup>rd</sup> Quarter Expectation:** Infants born and discharged to home between January – July, should be registered in a HRIF Program. Closeout Checklist item #12 = 100%.

**CPQCC 1<sup>st</sup> Quarter Expectation:** Infants born and discharged to home between August – December, (of the previous year), should be registered in a HRIF Program.

# Family Information Form

To collect social-demographic information about HRIF patients and their families to determine the specific needs of this patient population and develop better standards of care for California HRIF Programs.

Printable forms and instruction are available at <https://www.cpqcc.org/perinatal-programs/ccscpqcc-hrif-qci/resource-corner> in the following languages:

- English
- Spanish
- Vietnamese

# FAMILY INFORMATION FORM

## HIGH RISK INFANT FOLLOW-UP QUALITY OF CARE INITIATIVE

California Children's Services, CCS requests us to collect the information marked with an \* on families and children seen in our HRIF Program. Additional information is collected to help the HRIF Program help meet your needs. This form is **not** used to determine eligibility for services.

OPTIONAL	Name of person filling out the form and relation to the infant/child:	
	Name of infant/child (first and last):	
	Primary caregiver's email address:	
	Primary caregiver's home phone number:	Primary caregiver's mobile/cell number:
	Is the primary caregiver planning to move anytime soon? <input type="checkbox"/> Yes <input type="checkbox"/> No	
<p><b>*1. Do you have any of the following concerns about your infant/child at this time?</b> <i>(Check all that apply)</i> <small>Page 2</small></p> <p> <input type="checkbox"/> Behavioral      <input type="checkbox"/> Body Movement      <input type="checkbox"/> Calming/Crying      <input type="checkbox"/> Feeding &amp; Growth      <input type="checkbox"/> Hearing (Ears)  <input type="checkbox"/> Sleeping/Napping      <input type="checkbox"/> Stooling/Spitting-up      <input type="checkbox"/> Talking      <input type="checkbox"/> Vision (Eyes)      <input type="checkbox"/> Other: _____         </p>

# Record Tracker

The purpose of the Record Tracker tool is to help HRIF Programs track and finalize/close patient records.

The system will display the “**Date Expected**” for when the patient should have been seen for Standard Visit #1, #2 and #3, based on the recommended time frames. The “Date Expected” is calculated by using the patient’s gestational age.

Once the Standard Visit is submitted the “**Visit Date**” and the visit “**Disposition**” will override the “**Date Expected**”.

**NOTE:** The Record Tracker is located under the “**Tools**” tab and is updated in real-time.

# Case Status

**Priority Cases** are patient records with current adjusted age => 37 months and has one of the following:

1. Only has a Referral/Registration Form in the system (No visit forms submitted)
2. Open Forms = the **“This Form is Closed”** check box has not been checked
3. Non **“discharged”** disposition selected to close the case

**NOTE:** Priority Cases are highlighted in **RED**

**Warning Cases** are patient records with current adjusted age < 37 months with a non **“discharged”** disposition selected to close the case and has one of the following:

1. Open Forms – the **“This Form is Closed”** check box has not been checked
2. Missing Standard Visit Form(s)
3. **NOTE:** Warning Cases are highlighted in **YELLOW**

**Closed Cases** are patient records with the following:

1. All forms are Closed – the **“This Form is Closed”** check box has been checked
2. A **“discharged”** disposition has been selected to close the case

# CPQCC Reference Numbers

The purpose of the CPQCC Reference Number tool is to provide a full list of all the HRIF Programs registered infants and allow program staff to update and enter the CPQCC Patient Network ID Numbers.

The CPQCC ID Numbers tools is located under the **“Tools”** tab and is updated in real-time.

**NOTE:** All small babies ( $\leq 1500$  grams) born or discharged from a CPQCC CCS NICU should be assigned a CPQCC ID Network Number.

## CPQCC REFERENCE NUMBERS

**Infant's Birth Year/Month**

# Error & Warning Report

Purpose of the Error and Warning Report tool is to alert HRIF Programs of missing or incorrect data entries and to help aid them in completing and finalizing their data.

The system will display patient records with any of the following issues: **“Duplicate Record”**, **“Missing CPQCC ID Number”**, **“No Forms”**, **“Transfer Record Incomplete”**, **“Met Age Limit for Program”**, **“Missing Birth Date of Mother”**, **“Incorrect Date of Visit”**, **“Duplicate Core Visit”** and **“Expected SV #1 Missing”**, and an action plan to resolve the issue.

**NOTE:** The Error and Warning Report tool is located under the **“Tools”** tab and is updated in real-time.

## HRIF ERROR AND WARNING REPORT

HRIF Program: All  
Infant's Birth Year: 2014  
Total Case Num: 4668  
Report Date: 2016-09-26 12:00 AM

### Form Key:

# System Improvements

# Released 01.2017

## Referral Rejected

- Drop down selection: **“Duplicate Record”**; **“Not Eligible Due To: text field”**; and **“Referred in Error: text field”**

**NOTE:** The record is returned to the referring center with **“Referral Rejected”** as the referral status and listed in the “Pending” tab.

### The Referring Center:

1. Confirm that the record was a “Duplicate”, “Referred in Error” and or “Not Eligible Due To” (**NOTE:** Confirmed records are removed from the system).
2. Records **“Referred in Error”** can be referred to another HRIF Program, if the infant met criteria and the HRIF Program clinic location and/or insurance (ie. Kaiser) was changed.

## REFERRAL/REGISTRATION FORM

# System Reports

## ➤ **HRIF Summary Report**

- Provide HRIF Programs with confidential information about their patient's HRIF follow-up outcomes.

## ➤ **HRIF CCS Reports**

- Provide CCS an annual compilation of site-specific longitudinal outcomes. Released after the data set cohort year has been finalized and closed.

## ➤ **NICU Report**

- Provide NICU care providers with confidential information about their patient's post-discharge care, course, and HRIF follow-up outcomes.

# HRIF Executive Committee

The HRIF Executive Committee consists of a network of stakeholders consisting of public and private CCS approved HRIF Program representatives, neonatologists, developmental pediatricians, State CCS leadership, and CCS TAC members. The committee meets regularly to provide oversight and consultation, debate, review, prioritize and plan the direction in which the HRIF-QCI program moves. Such dialogue assures continued success within all project components.

<b>Jeffrey Gould, MD, MPH</b>	Principal Investigator, CPQCC
<b>Susan Hintz, M.D., M.S. Epi</b>	Co-Principal Investigator, HRIF-QCI

## High Risk Infant Follow-up Quality of Care Initiative

Children's Medical Services (CMS) Branch/California Children's Services (CCS) Program has worked with the CCS/California Perinatal Quality Care Collaborative (CPQCC) High Risk Infant Follow-up (HRIF) Quality of Care Initiative (QCI) to develop a web-based HRIF Reporting System to collect data for the CCS HRIF Program. The Reporting System will be able to identify quality improvement opportunities for NICUs in the reduction of long term morbidity; allow programs to compare their activities with all sites throughout the state; allow the state to assess site-specific successes; and support real-time case management. The system, collecting data on high risk infants up to their third birthday, enrolled in the CCS HRIF Program, will add value to the current CPQCC data already collected.

The California Children's Services (CCS) HRIF program was established to identify infants who might develop CCS-eligible conditions after discharge from a CCS-approved Neonatal Intensive Care Unit (NICU). CCS Program standards require that each CCS-approved NICU ensure the follow-up of discharged high risk infants and that each NICU shall either have an organized program or a written agreement for provision of these services by another CCS-approved NICU.

### CCS HRIF Program

Policy and information for the California Department of Health Care Services, Systems of Care Division, California Children's Services (CCS) HRIF Program's medical eligibility criteria, diagnostic services, provider responsibilities, and procedures for billing authorized HRIF services provided to CCS HRIF eligible neonates, infants and children. [More >](#)

### Reporting Requirements

- CCS-approved NICUs are responsible for identifying and referring eligible high-risk infants to a CCS HRIF Program for follow-up care.
- The HRIF Program Coordinator is responsible for ensuring that high-risk infants follow-up data is collected and submitted via the web-based HRIF-QCI Reporting System. [More >](#)

### Reporting System Access

Need access to submit data for CCS high-risk eligible infants. [More >](#)

## CCS HRIF Program

The CCS HRIF Program was established in 1979 to identify infants who might develop CCS Program-eligible conditions after discharge from a CCS Program- approved Neonatal Intensive Care Unit (NICU). Since 1979, the CCS Program's goal of identifying neonates, infants and children who may develop a CCS Program- eligible medical condition has not changed.

The CCS Program's standards for NICUs require that each CCS Program-approved NICU ensure the follow-up of neonates and infants discharged from the NICU who have high risk for neurodevelopmental delay or disability. The CCS HRIF Program provides for three Standard Visits which include a limited number of outpatient diagnostic services for infants and children up to three years of age whose care was provided in a CCS Program-approved NICU. All three Standard Visits should occur, particularly for those neonates, infants and children identified with impairments or to be at high risk, including very low birth weight infants, even if the child has been referred to services and other resources.

Each CCS Program-approved NICU must have an organized HRIF Program for the provision of these core diagnostic services or a written agreement with another CCS Program-approved HRIF Program to provide these services.

The CCS HRIF Program revised medical eligibility criteria (P.L. 01-0606), effective July 1, 2006, with additional diagnostic services available for reimbursement. The policy in P.L. 01-1113 dated November 22, 2013 clarified the HRIF criteria for services to ensure all eligible infants have access to these diagnostic assessments. These criteria are reiterated in the [High Risk Infant Follow-up Program Number Letter \(N.L.\): 01-1016](#).

P.L. 01-1113 included clarification on medical eligibility for those neonates who require direct admit to a CCS Program-approved Pediatric Intensive Care Unit (PICU), who are never admitted to a CCS Program-approved NICU, but who otherwise meet all medical eligibility criteria for HRIF services. These neonates are eligible for HRIF services.

The goal of the HRIF Program is to provide opportunities to identify clients with new or emerging problems and make appropriate referrals. HRIF services include:

1. Comprehensive History and Physical Examination, including neurologic assessment
2. Developmental Assessment (Bayley Scales of Infant Development [BSID] or an equivalent test)
3. Family Psychosocial Assessment, to be performed during the child's three-year eligibility period

## Annual Data Trainings & Program Updates

The CPQCC Data Center, CPeTS Executive Committee and CPQCC/CCS HRIF-QCI Program jointly conducts three in-person Data Training & Program Update sessions throughout the state, one in Northern California and two in Southern California. The in-person trainings will provide program updates, opportunities for networking, interactive learning sessions and for in-depth discussion regarding the data collection. [More ▶](#)

## NICU Program Responsibilities

Each CCS-approved NICU that has its own HRIF Program is required to have a multidisciplinary team of professionals that may include pediatricians or neonatologists, pediatric nurse practitioners (PNPs), nurse specialists, ophthalmologists, audiologists, social workers, psychologists, physical therapists, and occupational therapists. All professionals listed must be CCS-approved. The PNP only requires CCS-approval when functioning in the CCS HRIF Program as the HRIF Coordinator.

**As part of the NICU discharge planning process, the NICU must identify and refer to the CCS Program clients identified as potentially eligible for the HRIF Program.**

1. This can be accomplished by submitting Service Authorization Requests (SARs) to the appropriate County CCS Program or State Systems of Care Division (SCD) Office.
2. The SARs are available online at the CCS Forms website, <http://www.dhcs.ca.gov/formsandpubs/forms/Pages/CCSForms.aspx>
3. Click on form DHCS 4488 (New Referral of CCS/GHPP Client SAR or form DHCS 4509, Established CCS/Genetically Handicapped Persons Program Client SAR).
4. These forms can be completed online. Print and fax to the appropriate county CCS Program or State SCD Office.
5. The approved or denied SARs for HRIF services will be mailed or faxed to the HRIF provider by the local county CCS Program or SCD Office, if the hospital facility is not approved to access online correspondence via the Provider Electronic Data Interchange (PEDi) system.
